

APPLICATION

Suitable for permanent or semi-permanent use.
Can be used indoors or outdoors and to provide a secure boundary on stage and preventative support.

NEEDS ASSESSMENT

- **PRIVATE EVENTS** - Often used for private functions to enclose a small stage in a secluded location or private residence, the stainless steel handrails add a stylish finish to what is a practical requirement and is an attractive option to complement existing interior furnishings.
- **DEMONSTRATION STAGES** - Used in exhibitions halls and promotional locations, the stainless steel handrail with glass inserts add extra flare to a product display, ensuring passers-by are enticed by your product stand and are completely safe when entering stages at height.
- **BRANDING** - The glass inserts of the stainless steel handrails allow for all manner of branding opportunities to personalise your event or promotion, making it a unique experience for your prospective customers.

TECHNICAL DIAGNOSTICS & SPECIFICATIONS

Standard handrails are required for stages 1000mm and taller. 50mm x 50mm x 4mm stainless steel frames ensure a light yet sturdy frame. 10mm glass inserts are securely fastened to the frame and supported by a 35 x 19mm kickrail. The stainless steel handrails have custom designed couplings for easy installation and removal. A customized transport case comes with stainless steel handrails for safety and securely moving the items from the warehouse to the venue and back again. All stainless steel handrails are compatible with the full range of Megadeck stages.

Elegant and stylish handrails with stainless steel frame and glass inserts.
