

APPLICATION

Suitable for permanent or semi-permanent use.
Can be used indoors or outdoors to provide a secure boundary on stage and preventative support.

NEEDS ASSESSMENT

- **SPECIAL EVENTS** - Often used for private functions to enclose a small VIP area, the white Perspex handrails offer a high end finish to complement a custom stage.
- **DEMONSTRATION STAGES** - Used in exhibitions halls and promotional locations, the white perspex handrail with clear acrylic inserts adds extra flare to a product display, ensuring passers-by are enticed by your product stand and are completely safe when entering stages at height.
- **TIERED / ELEVATED RISERS** - Tall or tiered stages for the general public require enclosed handrails which the white Perspex handrails are ideally suited for.
- **BRANDING** - The clear acrylic inserts of the stainless steel handrails allow for all manner of branding opportunities to personalise your event or promotion, making it a unique experience for your prospective customers.
- **STEPS** - To complete the stage set up, our white perspex handrails are designed to fit Megadeck steps.

TECHNICAL DIAGNOSTICS & SPECIFICATIONS

Enclosed handrails are required for stages used by the general public such as elevated or tiered seating risers. The heavy duty steel frame construction and enclosed clear acrylic inserts provide a safe and attractive solution to working with staging at height and where a stylish finish is in mind. The white perspex handrails have custom designed couplings for easy installation and removal. All white perspex handrails are compatible with the full range of Megadeck stages.

Elegant and stylish handrails with clear acrylic inserts.
