

## APPLICATION

A motorized revolving stage for small or large items at various heights and speeds.

## NEEDS ASSESSMENT

- **PRODUCT DISPLAY** - For small items or lightweight products, the turntable is perfect for displaying your item.
- **PERFORMANCE STAGE** - The rotating stage is ideally suited for performers to entertain guests in a 360-degree capacity. Rotating at a given speed or direction
- **INSTRUMENT RISER** - The rotating stage can be an elegant addition to any show when used as a piano riser for example and the performer playing at a comfortable height and speed.
- **REVEAL STAGES** - When you are looking for a surprise effect, our rotating stages can be used with a partition on stage and a product/performer cunningly hiding on the other side before revolving the stage for a stunning reveal.
- **VIDEO SHOOTS** - Often used in video production, the turntable or rotating stage can be operated within a studio and easily edited in post-production for a seamless and invisible look.

## TECHNICAL DIAGNOSTICS & SPECIFICATIONS

The turntable is a motorized stage that is connected to main power. It operates in a clockwise or anti clockwise manner and has either a timber or acrylic finish. An option of black or white with corresponding stage skirting provides a neat and tidy finish.

The rotating stages come in various diameters and is battery operated. It comes fully charged for an operating duration of several hours depending on load. For extended periods of use it can be charged overnight.

A motorized revolving stage for small or large items at various heights and speeds.

## FACTS

- Constructed from high grade **aluminium** for a light yet strong frame
- **Structural** 15mm timber top.
- **Diameters** - Range from 1m - 1.2m for **turntables**
- **Diameters** - Range from 1.8m through to 6m for **rotating** stages
- Suitable **working heights** range from 350mm - 900mm
- Equipped with a **safety switch**, the turntable and rotating stage can be stopped instantly if required
- **Surfaces** - include timber, acrylic, Perspex and astro turf.
- **Australian** made
